

270 Tons of Train, A Rope and.... The Grunt!

Benefits people with Autism and other Developmental Disabilities
www.letspulltogether.org

What is the Train Pull

A team of **twenty people grasp rope to see how fast they can pull a real, live, working, 1952 locomotive!!!** Each pull is truly an attempt for a new world record. To our knowledge, there is only one other event like it in the world held in Maryland. Its time to bring the world record to Nelsonville, Ohio.

Why...

To **raise funds for the people who have Autism and other developmental disabilities.** For now there are too few services in South East Ohio and families have to travel too far to get the help they need. HAVAR INC has committed to changing that and creating new services, facilities and trained staff. All this is necessary to **help battle a condition that now affects 1 child of every 150 and has grown a staggering 2300% in Ohio since the last census.** We need your help! We are pulling a 270 ton train after all and it takes a team! Here is how the fund raising works!

- * One, Five, Ten or more people join together to make a team of twenty members, men and women alike, of all ages.
- * Each member is asked to raise a minimum of \$25.00 dollars for the entry fee,
- * A complete team entry fee is only \$500 dollars. (This is a Team minimum.)

All funds that are raised stay in Athens and surrounding counties and are used for local citizens. We are learning how to make a real difference. The Train Pull and the money raised will help educate families, train staff, build resources and serve people who's lives can be helped with just a helping hand from you.

How can you help?

It's easy, you can choose to enter a team from your office, or you may choose to sponsor some of your friends, family or associates. If you wish to become a sponsor **contact info@havar.org or phone 740-753-9101** and ask for Dave!
See you there August 22 nd, 2009.

On your own? Don't have a team. DON'T worry...we have teams we can place you with so you Don't miss the fun.
